PROFESSIONAL SUMMARY

Motivated B.Tech 4th-year student with a strong foundation in programming, problem-solving, and software development. Proficient in Python and familiar with JavaScript, web development concepts, and database fundamentals. Have developed academic and personal projects that helped strengthen my understanding of programming, logical thinking, and practical application of technical concepts. Possess a strong willingness to learn new technologies and adapt to new environments. Looking for an entry-level opportunity where I can apply my technical knowledge, contribute to organizational goals, gain practical industry experience, and continuously develop my skills as a software professional.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, C

Frontend: React.js, HTML, CSS, JavaScript

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Tools & Version Control: Git, GitHub, VS Code

EDUCATION

Bachelor's of Technology in Computer Science and Engineering 2023 – 2027
Sreyas Institute of Engineering & Technology | CGPA: 9.3 / 10

Intermediate (Class 12) – MPC 2021 – 2023
Narayana Junior College | Percentage: 97.6 / 100

Secondary School (Class 10) – SSC 2021
Sri Sai Grammar High School | Grade: 10 / 10

EXPERIENCE

FullStack Developer Intern — CodeAlpha July 2026 – August 2026

- Developed a responsive E-commerce Website using HTML, CSS, JavaScript, and Python, with cross-device compatibility and reliable application performance.
- Built a Social Media Mini Platform by integrating frontend interfaces with backend logic and MongoDB, enabling smooth data flow across application modules.
- Used Git and GitHub for version control, debugging, and code management while following clean coding practices to improve application stability and maintainability.

PROJECTS

Sentimental Analysis

- Designed a web application using JavaScript, HTML, and CSS that analyses text sentiment in real-time
- Enables users to enter text and get instant feedback on whether the text is positive, negative or neutral

Financial Risk Analysis

- JavaScript-based finance risk analysis application that evaluates potential financial risks using data inputs.
- Features a simple, user-friendly interface to display risk metrics and insights for better decision making

ShopEase – E-commerce Website

- Built a full-stack e-commerce web application with product listings, shopping cart, and checkout flow using JavaScript, HTML/CSS, and a Java/Python backend, backed by a MySQL database for products, users, and orders.
- Implemented responsive UI components to deliver a consistent shopping experience across screen sizes.

Mini Social Media Platform

- Developed a social media web application supporting user profiles, posts, and interactions with a JavaScript frontend and MySQL-backed backend.
- Applied clean, modular code architecture to simplify future feature additions.

ACHIEVEMENTS

- Developed academic and personal projects to apply programming concepts to practical problems.

SOFT SKILLS

Problem-Solving, Team Collaboration, Communication, Adaptability, Time Management, Attention to Detail, Continuous Learning
